

Shaimaa Jamal Nur

UX/UI Designer & Front-End Developer

+1-940-238-6273 · shimaa.j.nur@gmail.com · UAE / Remote · shaimaajamal.com

UX/UI designer and front-end developer with 3 years of experience taking products from research and wireframes through high-fidelity design to shipped, responsive code. I care about the small details that make an interface feel right, I like owning work from start to finish, and I'm always learning, most recently about how AI can make everyday product flows a little smarter and faster.

EXPERIENCE

UX/UI Designer & Front-End Developer

2024 – Present

Cosmetics Growth · Remote (US)

- Designed and built the company website from the ground up, covering UX strategy, brand visuals, responsive front-end, and deployment, which grew inbound client inquiries by about 40% within the first two months.
- Redesigned conversion-focused marketing sites for 8+ cosmetics-brand clients, with clearer structure, stronger calls to action, and faster load times.
- Ran up to 3 client projects at once within two-week windows as the sole point of contact, completing 12+ end-to-end projects across 4 countries without missing a deadline.
- Added lightweight AI features such as in-product chat, UX helpers, and content generation using the Claude and OpenAI APIs.

Freelance UI/UX Designer & Front-End Developer

2023 – 2024

Independent · Worldwide

- Designed and built 20+ digital products, including landing pages, SaaS dashboards, mobile-app interfaces, and e-commerce storefronts, for clients across the UAE, US, UK, and Europe.
- Shipped production front-end (HTML, CSS, JavaScript, React) rather than stopping at design handoff, keeping the build true to the design.
- Integrated AI capabilities into client products using the Claude and OpenAI APIs, including in-product chat, smart search, and generative content blocks.
- Earned repeat business from around 70% of clients through reliable delivery and clear communication across 6+ time zones.

Product & Brand Designer

2022 – 2023

Family-owned FMCG business · Dubai, UAE

- Redesigned a powdered-milk brand's packaging from concept to print-ready files, working within real manufacturing and UAE labeling constraints, which supported stronger retail orders after launch.
- Designed and built the company website from scratch and grew its monthly traffic, generating direct B2B inquiries from regional distributors.
- Created a full brand system, including the logo, packaging, and marketing collateral, for one consistent identity across every sales channel.
